Summary

I am a web developer specializing in building web applications. I'm passionate about improving user experience by cultivating great and better user interfaces, fluidity and responsiveness, which results in greater user retention.

Skills

- Languages: HTML5, CSS3 , JavaScript (client- and server-side)
- JavaScript Libraries and Frameworks: jQuery, ReactJS, ExpressJS, Socket.io
- Tools: Photoshop, Git (and GitHub), Gulp, Handlebars.js, Sass, Babel, Browserify
- Others: Responsive Design, File Processing, Payment Processing, Mentoring

Experience

Web Developer
Gaugr Inc.

April 2016 - Present
- Create server-side services for file and payment processing, and sending emails
- Set up Ubuntu web servers
- Collaborated to build and improve data structures

Web Application Developer
Guide Magazine

Aug 2015 - On-Going
- Created a fully featured JavaScript chat application, complete with admin panel:
  http://piecedigital.net/#full-project?project=gcc-app
- Designed the app to be touchscreen-friendly and responsive across desktop and mobile
- Constructed server code to be modular and efficient

Web Developer/Consultant
MTM Landscaping

Mar 2015 - May 2015
- Assisted in design decisions
- Constructed web code for optimal load times

Education

Free Code Camp
Oct 2014 - Apr 2015

- Completed this online curriculum in 6 months, where I learned my skills in full-stack web development. http://FreeCodeCamp.com/

Work Experience
Oct 2014 - Present

- From pro bono projects to paid work, everything in my portfolio and experience has been educational to me. The learning never ceases
